

Bangladesh University of Professionals **Centre for Higher Studies and Research**

Program Outline **MPhil Program (Session: 2014-15)**

PREFACE

General

1. The MPhil is a less advanced qualification than the PhD in which the researcher is expected to master in a specific area and can be completed in two years' study. MPhil is a stand-alone programme that allows researchers to undertake one year course work and one year research work. Sometimes this can be an intermediate step before registering on a subsequent PhD program; depending on how the project develops.
2. The MPhil thesis is normally shorter than the PhD thesis. It is an advanced research work where the researchers learn the fundamentals of research and acquire new techniques. The MPhil is also a legitimate higher degree qualification in its own right. A candidate for an MPhil must undertake an investigation which should be original in nature.

3. MPhil Program offered by the Centre for Higher Studies and Research (CHSR) is based on supportive supervision in an outstanding research environment. Researchers enrolled in MPhil program have an independent Supervisor as part of their supervisory team. A structured individual programme of skills training, personal development and academic progression monitoring complement the research project. These support structures have been developed to achieve an exceptional success record for our MPhil Researchers in submitting their thesis and making decisions on their future careers.

4. MPhil at Bangladesh University of Professionals (BUP) involves at least two years of study. The study is composed of course work, assignment, presentations and seminars. Submission and defence of thesis have been planned on completion of two years. In view of above, MPhil Candidates are expected to work hard to complete the program as scheduled.

5. This Program Outline is primarily meant for the Researchers of MPhil Program of Centre for Higher Studies and Research. It is equally applicable to concerned faculty members, administrative officers and staff involved with the preparation and implementation of the course curriculum. It contains the comprehensive Program Outline starting from the courses of 1st year, 2nd Semester and includes the Class Routine incorporating a column each for the Day/Date, Class Timing, Location (Classroom Number), Course Code, Topic/Event, Teacher/Faculty Member and Remarks/Discussion Points. The Program Outline is also a basic guideline indicating the mode of conduct of the course curriculum and research. It accommodates all relevant information required for the whole program. In a nutshell, this Program Outline is the ready answer to all your questions regarding 1st year, 2nd Semester Course Work and Research of MPhil Program (Session: 2014-15).

Program Starting and Finishing Dates

6. MPhil Program (Session: 2014-15) commenced in the month of July 2015. Researchers of this program have completed their first semester. Second Semester starts on 29 January 2016 and finishes on 16 June 2016. The Research Work for this program is expected to be completed within next one year as per this Program Outline.

Timing and Conduct of Classes

7. Course work classes will be conducted on Friday of sixteen consecutive weeks excluding government holidays. Researchers shall take two courses during second semester. There will be two classes a day of each course comprising a total of four classes a week. Each class shall be of 1 hour 30 minutes duration with a 15 minutes break in between.

Name of Courses with Codes

8. The name of courses with course codes have been stated below:

Serial	Name of Course	Code
1.	Regional and International Affairs (RIA)	PH 1201
2.	Statistical Packages for Advanced Data Analysis (SPDA)	PH 1202

Makeup Classes

9. In the event of acute eventualities, make-up classes may be conducted as per plan of CHSR.

Assessment System

10. The assessment system is as under:

Events	Weightage
Semester Final Examination	60%
Assignment and Case Studies (Individual/Group) including Presentation	30%
Regular Class Attendance and Participation	10%
Total	100%

Conclusion

11. This Program Outline, with its all information and instructions, welcomes the researchers to be a proud member of BUP. In fact, it is a complete guideline for the researchers, so that there is no room of any confusion on anyone's part. It may be said that this schedule is the mirror through which a researcher will get a clear and complete picture of the program. It is expected that researchers shall follow the Program Outline with utmost sincerity. Indeed, they complete the MPhil Program successfully and be awarded with the degree.
